## E-Cablaje

E-Cablaje is one of the main Romanian producers of electrical cables, control cables, brake and clutch, for motor vehicle, cords and leads, insulated, electric, with moulded-on plugs, cable assemblies, wiring harnesses/looms and cable connector assemblies.

Stand 1

## Eta-2U

We are the most important supplier of IT products and services and the main integrator of complex IT solution in the west part of Romania, one of the most certified companies in Romanian IT (technical, commercial and quality areas). We have a history of over 25 years and a performance constantly recognized through yearly nominations in the National Top of Companies.

Stand 2

## NC-Vision

NC-Vision was created as a revolutionary software toolbox for production and traceability, covering each process of a production environment from manufacturing execution, warehouse, track and trace, quality management and much more. Based on our approach, businesses from all industries mix and match just the modules needed for an affordable solution.

Stand 3

## Blunex Grup

We are manufacturer of polyethylene packaging. Bags, bags, polyethylene rolls, natural, antistatic and regranulat LDPE foil bags, separators, foil rolls with simple or antistatic bubbles bags, polyethylene roller separators expanded boxes and polyethylene separators expanded simple and antistatic Fabria is 15 km from Timisoara. We have 3 own minibuses for freight transport. Our clients are companies in the automotive, electronics and mobile.

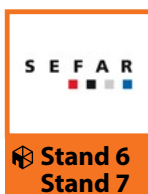

Stand 4

## Thermoform Getonic

We manufacture 2D and 3D insulation and cabin interior parts for industrial vehicles with premium automotive finishing. Because we believe anyone driving an industrial vehicle deserves maximum comfort.

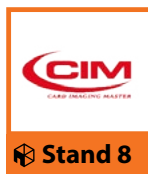

Stand 5

## Sefar

Sefar – Filter Technology Leading in technical fabrics for around 190 years, Sefar has been setting standards worldwide as a problem solver with an absolute customer focus. Sefar AG produces precision fabrics, filter components and ready-made products for filtration/separation, high-precision screen printing fabrics as well as innovative, functional fabrics for a wide variety of applications.

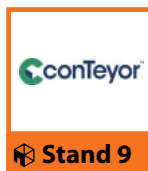

Stand 6  
Stand 7

## CIM

CIM has a long experience on supplying metal plate marking systems to the automotive and industrial sectors, necessary to identify products and components. Marking technologies : embossing, debossing , dot matrix , laser engraving.

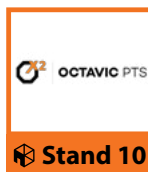

Stand 8

## conTeyor

conTeyor is an international player in the development and supply of reusable packaging solutions for delicate manufacturing parts. The organization has been developing and producing patented sustainable solutions in textiles, plastic and steel since 1995. The company serves customers in a variety of sectors with a focus on the automotive sector. conTeyor offers innovative and high-quality products with the main objective of finding sustainable solutions for its customers. conTeyor is present in 34 countries across Europe, the United States and South America.

Stand 9

## Octavic PTS

Octavic's mission is to deliver the best decision-making framework in the industry by offering real-time insights from manufacturing processes. As a young and dynamic startup, our solution is quickly being adopted by the pharmaceutical, automotive, and other manufacturing industries all around the world.

Stand 10

## Norka GT

Norka GT d.o.o. is a reliable partner in producing technical rubber parts with main focus and over 10 years experiences in the automotive and white goods industries. With modern machinery and excellent, highly qualified team of employees, we manufacture a range of high quality technical rubber and silicone products as well as composite products of combined rubber-plastic and rubber-metal.

Stand 11

## XSCEZA

For XSCEZA, the official distributor of Mobileye, an Intel company, and Lytx, driver safety is the top priority. We know that traffic in Romania is not the safest and most civilized and that is why we offer you two of the best solutions in the field of road safety. Our Mobileye technology is implemented in over 100 million vehicles today and is present in the first equipment of over 300 car models.

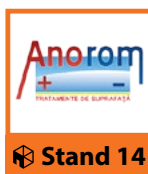

Stand 12

## Admasys Ro

We offer you the widest range of 3D technologies on the Romanian market: 3D technologies, 3D printers and high quality accessories, scanners Portable and metrological 3D, software, consumables, materials and professional services - from professional consulting to personalized services.

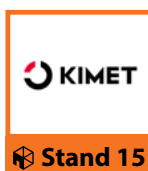

Stand 13

## Anorom

Anorom Company is specialized in the treatment of aluminium and aluminium surfaces. The surface treatments which Anorom performs are suitable both for the bright pieces of a laminated material and for the cast pieces.

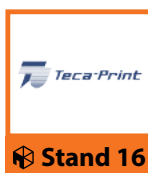

Stand 14

## Kimet

Our company's activity consists in selling, installation and training of machines, measuring devices and equipment specific in non-destructive examination. We offer our customers complete, ready-to-use solutions. We are the exclusive Romanian partner of the following producers: Diatest Hermann Költgen, Micro-Vu Corporation, Magnescale Europe, SciAps, Sonotec, Automation Dr.

Stand 15

## Teca-Print AG

Teca-Print was founded in 1973 in Thayngen, Switzerland, and belongs to the world's leading pad printing machine manufacturers. The high-quality Swiss products are developed and produced in-house by Teca-Print. The range includes many customized printing systems for specific applications.

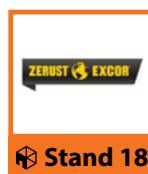

Stand 16

## Essity Romania

Essity is a leading global hygiene and health company - Sales in around 150 countries >48,000 employees - #1 or #2 position in about 90 countries - Develops, produces and sells Personal Care, Consumer Tissue and Professional Hygiene products and solutions. Tork is the world's leading brand in professional hygiene. We are committed to help our customers to improve their business, increasing productivity and improving your working life.

Stand 17

## Excor

EXCOR is a trailblazer in the field of corrosion protection applying the VCI method. For over 20 years EXCOR has been marketing VCI films. Over that period the company has paved the way for highly effective corrosion protection solutions involving patented VCI products. Today there is a solution for virtually any need.

Stand 18

## Schoeller Allibert

Schoeller Allibert is the European market leader of returnable industrial plastic packaging solutions. We offer a comprehensive range of standard and tailor made RTP packaging solutions dedicated to automotive industry, such as: Foldable Large Containers, Foldable Small Containers, Rigid Pallet Containers, Stackable and Stack/Nest handheld boxes, Pallets and Dollies. We focus not only on standard returnable packaging, but strive to foresee the trends of our main markets and invent new solutions to future needs in packaging.

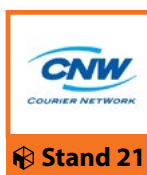

Stand 19

## Kama

We would like to introduce ourselves as the most popular manufacturer of castor and wheel in Turkey. Operating for more than 60 years in this field, including our international sales experiences in various markets, we are well aware of; - Exact customer needs - The market competitiveness - Importance of price & quality - Sustainability in the long term As a brief reminder, we are the oldest manufacturer of wheels and castors for light, medium and heavy duty. We have a wide range of wheels and castors.

Stand 20

## Courier Network

We have more than 35 years of experience in the urgent shipping business, and we are available 24/7 all around the year at your service, with a state of the art web-based system to track and trace your urgent shipments on line. With our offices around the world: USA, Mexico, Costa Rica, China, Singapore, Hong-Kong, Vietnam, Germany, Japan and EMEA, and with our partners worldwide - We can provide you the fastest shipping solutions.

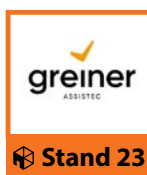

Stand 21

## Molex

As one of the Global Leader in Interconnect Solutions, with a portfolio of over 100,000 electronic products and a proven commitment to agile R&D, Molex brings together innovation and technology to deliver electronic solutions to customers worldwide. With a presence in more than 40 countries, Molex offers a full suite of solutions and services for many markets, including automotive, medical, industrial, consumer electronics and data communications.

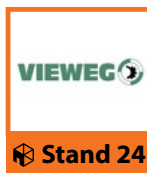

Stand 22

## Greiner Assistec

Europe's leading manufacturer of customized, sustainable & innovative plastic solutions & products, packagings & machinery.

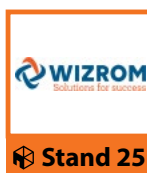

Stand 23

## Vieweg

We manufacture in Germany and supply systems for controlled and precise dispensing of low, medium and high viscosity fluids and pastes. Our products range from simple hand-held devices to complex integrated "in-line" 4-axis robotic systems. All our equipment is supplied directly from our facility in Kranzberg.

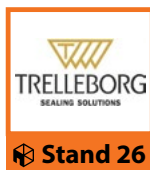

Stand 24

## Wizrom Software

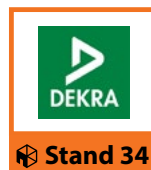

END-TO-END SOFTWARE SOLUTIONS FOR YOUR BUSINESS SUCCESS Welcome to Wizrom, one of the most innovative business management software providers in Romania! Over 25 years of experience on the Romanian market, we offer you some of the most advanced planning and optimization software solutions such as ERP, WMS, TMS, BI and HR.

Stand 25

## Trelleborg Sealing Solutions

Trelleborg is a world leader in engineered polymer solutions that seal, damp and protect critical applications in demanding environments. Our innovative engineered solutions accelerate performance for customers in a sustainable way. Trelleborg Sealing Solutions is a leading global supplier of polymer-based critical sealing solutions deployed in demanding general industry, light vehicle and aerospace environments.

## DEKRA Certification

DEKRA Certification is a leading global provider of auditing and certification services, specializing in the automotive, quality, safety, environmental and health industries. DEKRA's expertise covers management systems as well as testing, inspection and certification of a wide range of products, components and equipment used in hazardous environments. DEKRA Certification in Romania is an impartial and independent certification body. We have Romanian and foreign experts to cover all areas of activity and to be able to offer you top specialized services.

## Eltex Recycling

Eltex Recycling provides comprehensive and long-term business waste management services, starting with organizing the flow of collection process resulted from productions lines to identifying the right solution of treatment, recycling and recovery of waste. Our innovative total waste management services focus on driving costs out of your business and reducing your organisation's impact on the environment. We compile an efficient integrated waste management system fitted perfectly for your factory/location (bins, equipment, trained workforce, solution for waste).

## Blickle Romania

Blickle Romania SRL is the branch of the manufacturer of wheels and castors of the same name, Blickle Räder + Rollen GmbH u. Co. KG. [www.blickle.ro](http://www.blickle.ro), [www.blickle.com](http://www.blickle.com) Blickle products are known for their high technical standards and excellent "Made in Germany" quality and are exported to over 120 countries worldwide. The wide range of products comprises over 30,000 different wheels and castors, with a load capacity between 15 and 50,000 kg. Details can be found on our website and catalogues.

## Zaleco

We are a multi-material company specialized in industry packaging, offering solutions in cardboard (including inlays, dividers, boxes and many more), honeycomb cardboard, packaging foam (EPE, PU, EVA foams) (cutting, stamping, laminating, assembly), ESD foam (dissipative, conductive), alveolar plastic (including returnable boxes with accessories and inlays), corrugated PP plastic sheets, corrugated PP plastic boxes, corrugated PP plastic dividers or wood/plywood/MDF solutions. Our services also include design, optimization and fast sampling.

## Ingun Prüfmittelbau

With powerful, efficient testing technology, we promote industry trends such as 5G, e-mobility, and the increasing miniaturisation of electronic components. The expertise gained over decades has made INGUN a global leading company with the most comprehensive portfolio of test probes and test fixture accessories - anyone looking for tailor-made testing technology for efficient, reliable quality assurance comes to us.

## ALC Inject Polistiren

Experienced producer of moulded parts from eps and epp materials, for various industries like automotive, packing, white goods. Acting as tier 1 and tier 2 supplier for automotive epp and eps components.

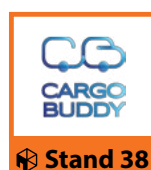

## GIC Nosag Metal

GIC represents a group of companies dedicated to the automotive business, with a consolidated turnover of 128 million euro generated within the industry and 1700 employees. With more than 40 years of experience, today GIC has an optimized organizational structure driven forward by customer requirements and technological innovation within the 3 sectors we specialize in: plastic injections, PUR and metallic processing. Plastics Injection moulding, including 2K injection, over moulding, gas injection, welding, punching and assembling, tampo-printing.

## Nutechnologies

Nutechnologies is an ambitious company, formed in 2012 and specializing in promoting innovative industrial equipment: 3D printers, laser systems for cutting, welding, 2D and 3D marking. We are authorized technical and commercial representative for: Stratasy - world leader for professional 3D printing systems Sisma - Italian market leader for laser systems.

## CargoBuddy Solutions

Cargo Buddy is the platform that brings carriers and goods together in one place, so that we can simplify the process, make communication easier and avoid unwanted problems. National and international freight solutions, personalized assistance for each order, fast and easy communication with the driver assigned to your freight, real-time notifications on the situation of transport, monitoring of goods, insurance of transported goods - up to 1 million euros, support community, freight services with personalized benefits.

## Euro Sandow

Euro Sandow is one of the leading producers for custom made elastic nets, shock cords, bungee cords, elastic straps, luggage and floor nets for a wide variety of securing applications. Most of the products are designed for the automotive industry as a 2nd tier supplier.

## Syoneex

SYONEEX is a smart manufacturing platform for aggregating, consolidating, processing and distributing data in various areas and covering all industry specifics. With over 13 years of experience & knowledge of manufacturing processes, technological changes & industrial systems, we are dedicated to develop the best smart manufacturing platforms.

## PMC Project

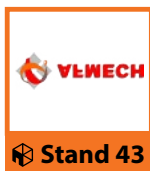

We specialize in the design and manufacture of: Control gauges, jigs, GOM fixtures, OEM tooling. Vulcanization mandrills. Automation of production process - semi-automatic workstations. Indirect services and machines.

## Effective Flux

Consulting, training and digitalization company with over 350 companies customers, deeply involved with improvement (quality, production, maintenance, logistics) projects, in automotive industry and other industries as well.

New services: HIM system - an AR Poka yoke for the manual operation; Flexsim - best 3D layout simulation; Time and attendance platform; Quality documents (complaints, PPAP) and tools (FMEA, CP, SPC, MSA) management platform; CNC training.

## AFMECH

AFMECH is a company specialised in providing engineering, technical solutions in different fields such as Hydraulics, Pneumatics, Lubrication, OEM spare parts. We are independent from the manufacturers so that we can find the best solutions for our customers. We have more than 30 years experience in these different fields. We are active in the Automotive, Aerospace, Paper, Steel and Glass, Plastic Chemical and Medical, Food industries, as well as Renewable Energy sector.

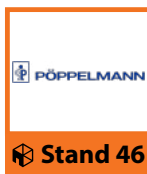

## TE-TE Plast

TE-TE Plast is a company that deals with tool making and the entire process of development of plastic components through their serial prod. by a process of 1K and 2K thermoplastic injection moulding. Our focus is on the production and engineering of plastic moulding tools and the prod. of plastic comp. and parts for the automotive ind in which we've been present for many years. Manufacture of complex parts, insert moulding, over moulding. We have our own tool shop and plastic processing sector equipped with technical and technological equip, qualified staff and many years of experience.

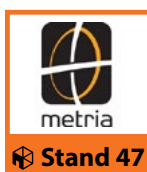

## Edorom Metal

The main activity of EDOROM METAL company is cold plastic deformation, including the following processes: stamping, progressive stamping, bending and press assembly. We process all types of metals, ferrous and non-ferrous, with thicknesses between 0.4 and 4.5 mm Automatic presses from 40 to 250 tf.

## Pöppelmann

Pöppelmann KAPSTO® – Plastic protective caps and plugs for every application. Our KAPSTO® protective caps and plugs ensure optimum protection during production, storage and transport. Every protection element of our KAPSTO® standard program with over 3,000 versions perfectly protects your application. – All individually tailored according to your requirements. Whether robust, low-abrasion, temperature resistant or sealing – you will find the right protective element here.

## Metria

History of METRIA is a 20 years old success story with our clients with whom we have been working together in realization of Cost reduction and transport damage elimination programs. YOU ALSO MAY NEED OUR ADVICE! if you have transport damage. if you think your packaging cost is high. if you want to improve your packaging technology. if the special packaging knowledge of your technical and purchasing team is not sufficient. if you - as the leader - can't see clear the packaging situation of your company.

## Gotec Rom

Gotec Rom is specialized in metal and plastic parts surface treatment and coating of rubber - metal parts with bonding agent, as well as production of blank metal parts on CNC lathe and plastic injection molded parts. Available surface treatment processes: Zn Ni treatment on racks with or without sealing Zn Ca Phosphating and Aluminium Phosphating in drums Degreasing: alkaline or with Perchlor steam Shot blasting Bonding agent application.

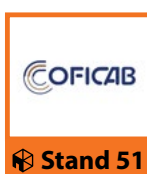

## UAMT

UAMT is a Romanian automotive company with tradition since 1951 which can provide solutions in Plastic Injection, Metal Welding, Assembly, Stamping / Cold pressing, Steel Wire Bending, KTL Painting.

## Stettler Tech

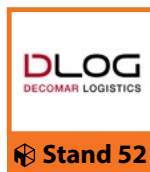

anufacturer of technical plastic components for different applications of the Automotive and Electronically Industry. Strategy: More performance from one source: Consulting, Development and Design, Injection molding, Assembly, Logistics. Customers: Automotive, Electrical Products and Self Defense Products Production: Injection Molding and Assembly Plastics is our language Listening: we listen carefully to identify your specific requirements. Translating: we translate those requirements and determine what it will take to make them happen.

## Coficab

OFICAB is a worldwide leader in the design, manufacturing, and sales of state-of-the-art electric wires and cables for the automotive industry, appliances, medical and industrial applications. COFICAB, a member of Elloumi Group, was founded in 1992.

## Decomar Logistic

DLOG is a proactive and dynamic organization that offers high-end quality services, expertise in: Quality control, Quality engineering, Logistics services, Project management. The Team is driven by qualitative principles and by ethical business approach with an international profile.

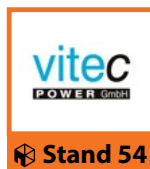

Stand 52

## Ansell Healthcare Europe

Ansell is an innovator in high-quality solutions for workplace safety, here to help you meet your goals. With over 125 years experience, you can rely on our team to help you identify, select and implement the most appropriate safety solutions for your employees. We've learnt a few things over the last 45 years of doing safety assessments. Every company is different and so is every worker. And all the operations they undertake and safety requirements they have are unique in their own way.

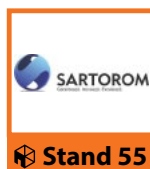

Stand 53

## Vitecpower

Vitec Power GmbH founded 1987. Our portfolio ranges from power supply solutions and components, used in various applications such as telecom, industrial controlling, medical technical devices, military, defense, aviation, ATE, test & measurement, communications, automotive, EDP (electronic data processing) network, LED & lighting, and many more, to technical- and design support on site. It is our objective to assist and support our customers with our specialist skills and many years of experience, from the "idea" to series maturity (and beyond), to identify the individual requirements, to provide the optimal solution, and thus establish and preserve long lasting loyal customer relationships.

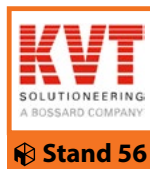

Stand 54

## Sartorom

Sartorom, the first laboratory equipment company founded after 1989, with fully Romanian capital, celebrates 30 years of activity in Romania. Our services focus on delivering complete solutions for laboratories in all industries, including research and development, production or quality control. The company is the first in the country to be ISO 9001 certified and ISO 17025 accredited as a supplier of laboratory instruments.

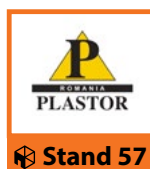

Stand 55

## KVT - Fastening

KVT-Fastening is an expert for high-quality, special fastening applications and offers engineering solutions based on the wide product portfolio of the leading manufacturers in the market. High-performance solutions from KVT-Fastening are found wherever absolutely safe and secure connections are essential.

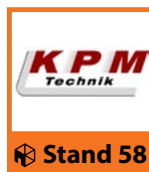

Stand 56

## Plastor

Plastor is one of the most experienced plastics moulding company, by mold-injection and blow-molding. We manufacture automotive or industrial components with a high technicity level and we have in-house own tooling shop. We provide to our customers complete solutions for plastics from being an active part in the part design team up to the manufacturing of components or sub-assemblies and logistics worldwide.

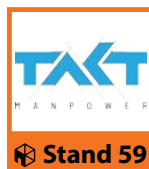

Stand 57

## KPM Technik

KPM Technik is a company operating in the automotive and aerospace industries, offering consulting services in engineering, design and execution for various components, assemblies and equipments. The company provides customers with complete technical documentation covering the entire production stream of components and systems from the concept phase to the production process, including the design of tools and devices used in production processes.

Stand 58

## TAKT Recruitment

TAKT Recruitment provides clients with turnkey manpower solutions (Outsourcing of Asian workers, Workforce Recruitment and Consultancy Services). Through the outsourcing service we offer clients the workers needed on the medium/long term. We offer a special personnel recruitment framework specific to the automotive industry through our partner centers in India. TAKT Recruitment Romania is part of an International Group of Companies focused on providing manpower solutions to markets that are currently facing the issue of labour shortage and skills mismatch.

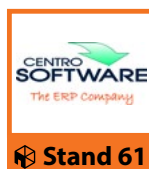

Stand 59

## Sirteq

SIRTEQ is the official representative of ATEQ in Romania. ATEQ is the world number one supplier of automatic leak testing machines & leak test systems for assembly lines or laboratories. ATEQ has developed a whole range of industrial quality control equipment ranging from electrical testers to pressure and flow calibrators as well as pressure and flow calibration services traceable to all international standards.

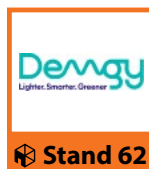

Stand 60

## Centro Software

LET'S MOVE TO A BETTER BUSINESS WITH ERP AND INDUSTRY 4.0 PROJECTS. Founded in 1988, Centro Software has developed the best 2nd generation ERP with optimised organisational models that increase company efficiency and reduce costs in accordance with the "LEAN Organization" principles. We are a team of 150 high-skilled people, and we have a network of over 70 certified partners.

Stand 61

## Demgy

Our MULTIPLASTURGY® concept allows us to simplify, LIGHTEN and implement your plastic projects, even the most complex. Expertise of the two factories in Romania (Fagaras and Deva): Thermoplastic injection; Technical and decorative parts; Over molding of inserts metallic; Gas assisted injection; Sequential injection Decoration; Painting (water based and solvent based); Tampo printing; Laser printing; Serigraphy; Hot stamping; Roctool technology Chrome plating; Cr6 and Cr3 technology (for plastic parts); Metal Electroplating; Zinc coating (for metallic parts); Assembling.

Stand 62

## Renex

RENEX is one of the largest and most experienced electronics companies in Poland. It has been providing modern technology for the electronics industry and related fields for 30 years. Also, RENEX is a manufacturer under the REECO brand of antistatic protection products, ESD: industrial furniture, clothing, accessories needed for this segment. We are the only CCI Training Center in Eastern Central Europe.

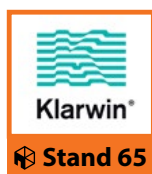

Stand 63

## ATX Hardware

ATX is Europe's market leader in the production of test fixtures for electronic test procedures. As a specialised solution provider, we design and produce customer-specific products in semi-automated individual and small series production. Most of the devices are precision-engineered one-offs with varying degrees of complexity. Customers use the products for in-circuit, functional and final tests of electronic assemblies and PCBs. Our high level of innovation and quality is what sets us apart from the competition.

## Klarwin

Klarwin® is the emerging European company specialised in technical consultancy, systems and services in the area of applied engineering for filtration, separation and purification of fluids and treatment of water.

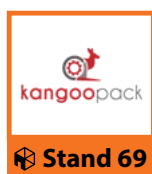

## Datirom Distribution

Datirom Distribution offers a complete range of industrial labels and tags, such as stainless steel tags, aluminium tags, plastic, PVC. All our products meet the strictest standards for design, testing and are backed by all required documentation. All products also comply with local regulations and international standards.

## E.ON Romania

Energy efficiency solutions for a sustainable business. E.ON has developed a portfolio of solutions that support the long-term business of its partners, helping to optimize energy costs and reduce the carbon footprint.

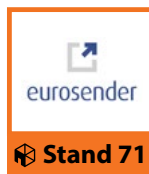

## Kangoopack

Consulting and Auditing The best solutions for your needs Kangoopack specialists support the packaging process of the partners with a continuous and consistent supply of practical information, regarding the available equipment and consumable products, thus facilitating the selection process of the most viable and efficient solutions. Installation Support in the installation process Kangoopack provides installation and installation assistance for each machine and training partner staff for both the installation process and the subsequent period.

## Vernicolor Group

Vernicolor locations: France, Romania, Tunisia, Mexico, Turkey Headquarter: Meudon Activities: Specialist in plastic decorated sub-assemblies Specialist in plastic parts painting (waterborne, solventborne, high gloss, UV) Injection molding Chrome plating Assembly / welding Screen-printing Hot-stamping Development of complete decorated products process including injection molds, assembly /control fixtures.

## Eurosender SARL

Eurosender SARL is a solution-driven logistics control tower with a focus and experience in the automotive industry. We offer time-critical and dedicated transportation for hundreds of manufacturers and distributors. Both on-the-spot, regular shipments, and just in time require flexible solutions in the automotive industry. Eurosender manages a network of more than 3500 vans in Europe. Our vans are up to 1000kg payload and up to 8-10 euro pallets.

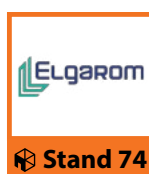

## Bunzl Romania

Bunzl is a focused and successful specialist international distribution and services Group with operations across the Americas, Europe, Asia Pacific and UK & Ireland.

## Grup Simex

GRUP SIMEX, founded in 2002, is specialized in manufacturing stamped parts and metal elements resulting from operations like cutting, bending and welding. With a dedicated professional team, advanced equipment and modern built warehouse GRUP SIMEX offers the guarantee of superior quality. GRUP SIMEX is certified by LRQA Romania with the following standards: ISO 9001, ISO 14001 and OHSAS 18001.

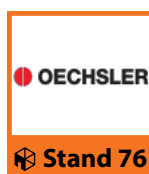

## Elgarom

ELGAROM has a state-of-the-art, electrochemical, low-acid, zinc-plating line that is completely automatic. The plant and the equipment that compose it are produced by renowned German companies in the field. Due to the complexity of the equipment the zinc plating line allows the zinc plating of different sizes on both devices and drums. On devices, zinc plated parts can have dimensions up to 1900x1200x450mm, while drums have a maximum load capacity of 100 kg.

## Fepo Steel Engineering

Established in 2019, FEPO STEEL ENGINEERING has started its activity within the Tools Devices Verifier Department of GROUP SIMEX. The main activity of the company is the design and execution of stamps (punching tools) and molds (dies). Our equipment allows us to perform operations like: cutting, drawing and drilling based on coordinates, milling on CNC machine tools, flat grinding and turning / threading.

## Oechsler Romania

From the precision part to the high-end component, from design components to mechatronic devices or footwear – OECHSLER has the system expertise to build customized innovative products, from concept to completion. Specialties: Healthcare, Functional Design, Additive Manufacturing, Plastic-Metal-Systems, Components for Vacuum Pumps, Assistance Systems for Autonomous Driving, Actuator Technology, Powder Injection Molding, and Sporting Goods.

Stand 77  
Stand 78  
Stand 79

## Kalinski

Our company is made up of automotive enthusiasts who have been continuously servicing, repairing as well as producing and distributing exhaust systems for all types of vehicles for over 30 years. The scope of our activities is the sale and service of components for exhaust systems of passenger cars, trucks, motorcycles.

Stand 80

## Electrolytic Coating

Founded in 2013, Electrolytic Coating has established itself as one of the leading companies for surface treatment in Romania, currently supplying local and international customers. We're providing ZnNi surface treatment on metal parts for automotive industry, in both, rack and barrel technology.

Stand 81

## Abeba Group

When people who bear responsibility are focused and committed to their work, abeba has a supporting role. Because our footwear is there to help our customers do their jobs with lasting ease. Our occupational and safety footwear is predominantly all about protection and safety. From year to year, the focus shifts more and more from minimum requirements to perfect wearing comfort and attractive styling. We work on this every day: founded 80 years ago in Saarland, we have been delivering all over the world for decades.

Stand 82

## Ejendals AB

Jalas safety shoes since 1916 and Tegera safety gloves since 1949. Protecting hands and feet.

Stand 83

## Connecto Retail

Connecto Retail provides automated catering solutions 24/24 system - Smart Solution for Innovative Catering.

Stand 84

## Bole

BOLE is a high-tech enterprises that focus on the research, development and manufacture of precision injection molding machines. It adopts the mode of technology from Germany, made in China, integrates design, manufacture, assembly, testing and sales, and provides complete and professional Injection Moulding devices for customers. BOLE Injection Moulding Machines are developed and directed by German experts.

Stand 85

## Cora Office Solutions

CORA PRINT SRL operates based on Law 448/2006, completed and updated by Decision 89/2010 and GEO 86/2008, legislative documents that regulate the activity and authorization of protected units. According to art.44 of the Methodological Norms for the application of choice 448/2006, "Protected Units" are considered "companies in which persons with disabilities carry out their activity, under certain conditions".

## SMARTINDUSTRY4.0SOLUTIONS

### 01 PRODUCTION DATA AQUISITION

Mixed production environments, where machines from various producers, make and model work together with human operators and manual workstations pose a great challenge to visualise, track and react quickly. ZAXSense IoT empowers production manager with real time production data from any machine and manual work stations through our specialised Industrial IoT node and reporting interface.

### 02 DATA ANALYSIS

**ZAX Sense** services merges data collected from machines and operators with production planning and scheduling. Production planning can be set up within **ZAX Sense** or imported from outside sources. Using data from machines and planning **ZAX Sense** can trigger alerts when production cycles are not maintained or incidents occur and follow up on how those incidents are solved.

### 03 DYNAMIC REPORTING

Information can be easily interpreted using our dynamic dashboards. **ZAX Sense** offers an overall view of the shop floor, with each machine status. Users can easily access extended information of specific machines regarding availability, productivity and quality (OEE). And thanks to production planning data, information regarding order completion and production efficiency is easily available.

**SaaS Cloud or on-premise deployment**

**Easy to install and non intrusive IoT nodes**

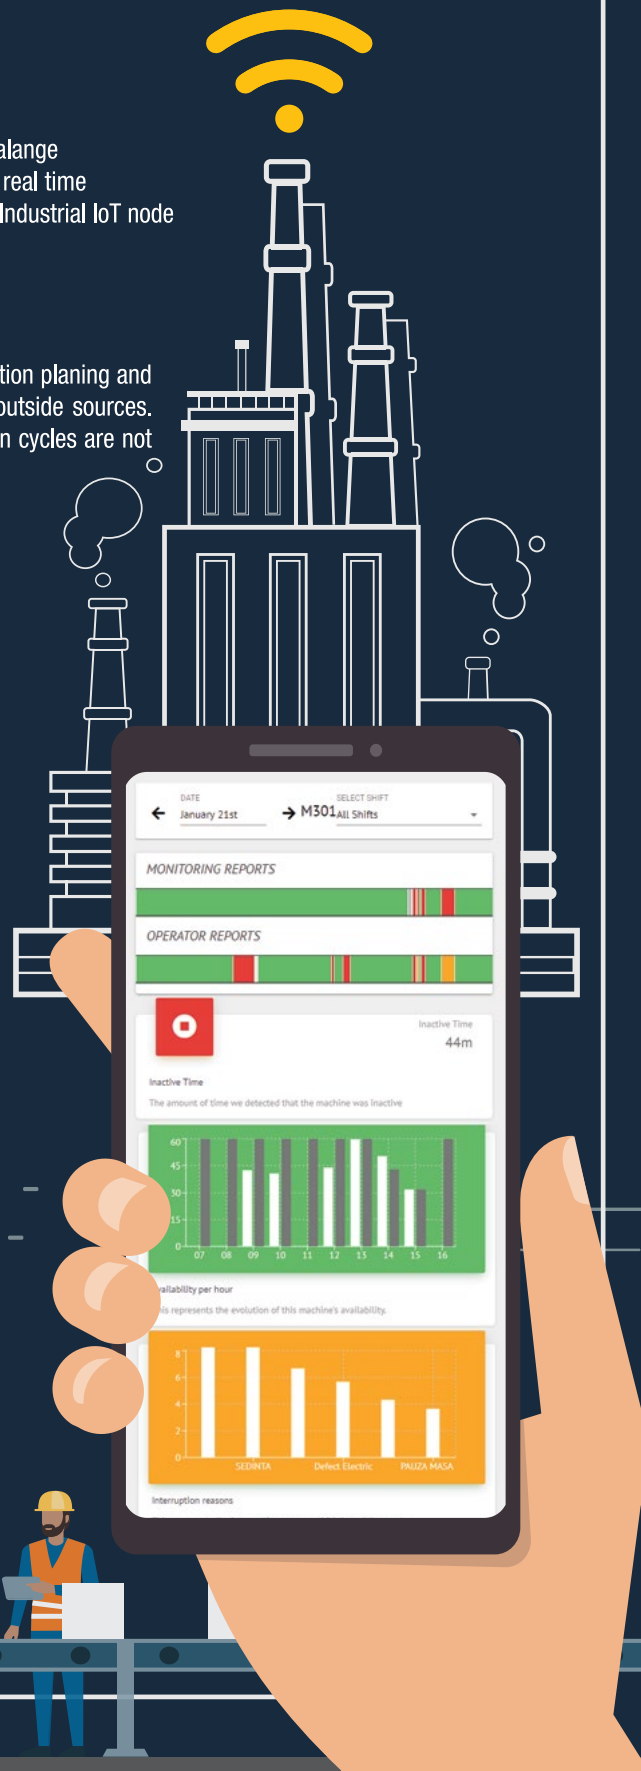

**Real time overview of production environment**

**Detailed statistics and production reports**

# EVENT EVALUATION SURVEY

AUTOMOTIVE  
EXPO

## ! Your opinion matters!

Would you help us improve future Automotive Expo & B2B Meetings events by completing our short survey?

### 1. Please rate your overall satisfaction with the event:

☐ *Very dissatisfied* ☐ *Dissatisfied* ☐ *Neutral* ☐ *Satisfied* ☐ *Very satisfied*

### 2. Please rate your level of satisfaction with the following:

	<i>Very dissatisfied</i>	<i>Dissatisfied</i>	<i>Neutral</i>	<i>Satisfied</i>	<i>Very satisfied</i>
<b>Registration</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Venue</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Programme</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Online Meetings Planner</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Exhibition Stand</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Event web site</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

### 3. What did you like most about the event?

### 4. What did you dislike most about the event?

### 5. Do you have any suggestion for future events?

### 6. Would you recommend this event to other people?

☐ *Definitely not* ☐ *Probably not* ☐ *Not sure* ☐ *Probably* ☐ *Definitely*

### 7. Do you intend to attend next year's event?

☐ *Yes* ☐ *No*
